

DIRECTOR OF CENTRAL INTELLIGENCE

Security Committee

SECOM-D-287

17 July 1980

MEMORANDUM FOR: Chief, Information Systems Security Group

ATTENTION:

FROM:

Executive Secretary

SUBJECT: Security Requirements for Automated
Information Systems Operating in
the Compartmented Mode

REFERENCE: Your 14 July 80 request for review
and comments on the subject paper

Thanks for the copy. I am answering with preliminary
comments for Chairman, Security Committee who is [redacted]
and for whom I do this sort of thing as Executive Secretary,
Security Committee.

25X1A

First some questions:

- Where did the paper originate?
- Who screwed it together (good work)?
- Does it have any Community input?
- Does it relate, supplement or conflict
with DCID 1/16?
- Do you think it has application outside
of CIA and its contractors?

Second, what do you want out of the Security Committee?
Want me to float it to [redacted] for comment by the Computer
Security Subcommittee (a natural course of action for me to take
on such matters referred to the Security Committee)?

Third, the Security Committee is responsible for coming up with uniform security procedures for use with [redacted]. There have been questions raised about the sufficiency of DCID 1/16 for [redacted]. Anything here we could use.

25X1A

Let's get together.

[redacted]
